FORWARD INDUSTRIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 OVERVIEW

Forward Industries, Inc. (“Forward” or the “Company”) designs and distributes carry and protective solutions, primarily for hand held electronic devices. The Company’s principal customer market is original equipment manufacturers, or “OEMs” (or the contract manufacturing firms of these OEM customers), that either package their products as accessories “in box” together with their branded product offerings, or sell them through their retail distribution channels. The Company’s OEM products include carrying cases and other accessories for medical monitoring and diagnostic kits and a variety of other portable electronic and non-electronic products (such as sporting and recreational products, bar code scanners, smartphones, GPS location devices, tablets, and firearms). The Company’s OEM customers are located in: (i) the Asia-Pacific Region, which we refer to as the “APAC Region”; (ii) Europe, the Middle East, and Africa, which we refer to as the “EMEA Region”; and (iii) the Americas. The Company does not manufacture any of its OEM products and sources substantially all of its OEM products from independent suppliers in China, through Forward China (refer to Note 7 – Buying Agency and Supply Agreement).

In the opinion of management, the accompanying condensed consolidated financial statements presented in this Quarterly Report on Form 10-Q reflect all normal recurring adjustments necessary to present fairly the financial position and results of operations and cash flows for the interim periods presented herein, but are not necessarily indicative of the results of operations for the year ending September 30, 2017. These condensed consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements included in its Annual Report on Form 10-K for the fiscal year ended September 30, 2016, and with the disclosures and risk factors presented therein. The September 30, 2016 condensed consolidated balance sheet has been derived from the audited consolidated financial statements.

NOTE 2 ACCOUNTING POLICIES

Accounting Estimates

The preparation of the Company’s condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates and assumptions.

Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of Forward Industries, Inc. and its wholly owned subsidiaries (Forward US and Forward Switzerland). All significant intercompany transactions and balances have been eliminated in consolidation.

Income Taxes

The Company recognizes future tax benefits and liabilities measured at enacted rates attributable to temporary differences between financial statement and income tax bases of assets and liabilities and to net tax operating loss carryforwards to the extent that realization of these benefits is more likely than not. As of March 31, 2017, there was no change to our assessment that a full valuation allowance was required against all net deferred tax assets. Accordingly, any deferred tax provision or benefit was offset by an equal and opposite change to the valuation allowance. No current book income tax provision was recorded against book net income due to the existence of significant net operating loss carryforwards.

Revenue Recognition

The Company generally recognizes revenue from product sales to its customers when: (i) title and risk of loss are transferred (in general, these conditions occur at either point of shipment or point of destination, depending on the terms of sale); (ii) persuasive evidence of an arrangement exists; (iii) the Company has no continuing obligations to the customer; and (iv) collection of the related accounts receivable is reasonably assured. The Company defers revenue when it receives consideration before achieving the criteria previously mentioned.

Reclassifications

Certain amounts in the accompanying fiscal 2016 financial statements have been reclassified to conform to the fiscal 2017 presentation.

NOTE 2 ACCOUNTING POLICIES (CONTINUED)

Share-Based Compensation Expense

The Company recognizes employee and director share-based compensation in its condensed consolidated statements of operations and comprehensive income (loss) at the grant-date fair value of stock options and other equity-based compensation. The determination of stock option grant-date fair value is estimated using the Black-Scholes option pricing model, which includes variables such as the expected volatility of the Company's share price, the exercise behavior of its grantees, interest rates, and dividend yields. These variables are projected based on the Company's historical data, experience, and other factors. In the case of awards with multiple vesting periods, the Company has elected to use the graded vesting attribution method, which recognizes compensation cost on a straight-line basis over each separately vesting portion of the award as if the award was, in-substance, multiple awards. Refer to Note 4 - Share-Based Compensation. In addition, the Company recognizes share-based compensation to non-employees based upon the fair value, using the Black-Scholes option pricing model, determined at the deemed measurement dates over the related contract service period.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, "Revenue from Contracts with Customers," which supersedes the revenue recognition requirements in Accounting Standards Codification ("ASC") 605-Revenue Recognition and most industry-specific guidance throughout the ASC. ASU 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. In July 2015, the FASB deferred the effective date for annual reporting periods beginning after December 15, 2017 (including interim reporting periods within those periods). Early adoption is permitted to the original effective date for annual reporting periods beginning after December 15, 2016 (including interim reporting periods within those periods). The amendments may be applied retrospectively to each prior period (full retrospective) or retrospectively with the cumulative effect recognized as of the date of initial application (modified retrospective). The Company will adopt ASU 2014-09 in the first quarter of fiscal 2018 and plans to apply the full retrospective approach. Because the Company's primary source of revenues is from the sale of finished goods, the Company does not anticipate that the adoption of ASU 2014-09 will have a material impact on its consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, "Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern", which requires management to assess a company's ability to continue as a going concern and to provide related footnote disclosures in certain circumstances. Before this new standard, there was minimal guidance in U.S. GAAP specific to going concern. Under the new standard, disclosures are required when conditions give rise to substantial doubt about a company's ability to continue as a going concern within one year from the financial statement issuance date. The new standard applies to all companies and is effective for the annual period ending after December 15, 2016, and all annual and interim periods thereafter. The Company will adopt this standard in its fiscal year ended September 30, 2017 consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, "Inventory (Topic 330): Simplifying the Measurement of Inventory," which applies to inventory that is measured using first-in, first-out ("FIFO") or average cost. Under the updated guidance, an entity should measure inventory that is within scope at the lower of cost and net realizable value, which is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. Subsequent measurement is unchanged for inventory that is measured using last-in, first-out ("LIFO"). This ASU is effective for annual and interim periods beginning after December 15, 2016, and should be applied prospectively with early adoption permitted at the beginning of an interim or annual reporting period. The Company does not anticipate that the adoption of ASU 2015-11 will have a material impact on its consolidated financial statements.

In November 2015, the FASB issued ASU 2015-17, "Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes," which applies to the classification of deferred tax assets and liabilities. The update eliminates the requirement to classify deferred tax assets and liabilities as noncurrent or current within a classified statement of financial position. This ASU is effective for annual and interim periods beginning after December 15, 2016, and should be applied prospectively with early adoption permitted at the beginning of an interim or annual reporting period. The Company does not anticipate that the adoption of ASU 2015-17 will have a material impact on its consolidated financial statements.

FORWARD INDUSTRIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 ACCOUNTING POLICIES (CONTINUED)

In February 2016, the FASB issued ASU 2016-02, “Leases (Topic 842),” which will require lessees to report most leases as assets and liabilities on the balance sheet, while lessor accounting will remain substantially unchanged. This ASU requires a modified retrospective transition approach for existing leases, whereby the new rules will be applied to the earliest year presented. The new standard is effective for reporting periods beginning after December 15, 2018 and early adoption is permitted. The Company is currently evaluating the potential impact of adopting this guidance on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, “Compensation — Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting,” which simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. This ASU is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Early adoption is permitted. The Company does not anticipate that the adoption of ASU 2016-09 will have a material impact on its consolidated financial statements.

NOTE 3 SHAREHOLDERS’ EQUITY

Stock Repurchase

In September 2002 and January 2004, the Board authorized the repurchase of up to an aggregate of 486,200 shares of outstanding common stock. Under those authorizations, through March 31, 2017, the Company repurchased an aggregate of 224,690 shares at a cost of approximately \$487,000. During the six months ended March 31, 2017, the Company did not repurchase or retire any shares of its outstanding restricted common stock.

NOTE 4 SHARE-BASED COMPENSATION

The fair value of each option award is estimated on the date of grant using the Black-Scholes option pricing model that uses the following assumptions. The expected term represents the period over which the stock option awards are expected to be outstanding. The Company utilizes the “simplified” method to develop an estimate of the expected term of “plain vanilla” employee option grants. The expected volatility used is based on the historical price of the Company’s stock over the most recent period commensurate with the expected term of the award. The risk-free interest rate used is based on the implied yield of U.S. Treasury zero-coupon issues with a remaining term equivalent to the award’s expected term. The Company historically has not paid any dividends on its common stock and had no intention to do so on the date the share-based awards were granted. The estimated annual forfeiture rate is based on management’s expectations and will reduce expense ratably over the vesting period. The forfeiture rate will be adjusted periodically based on the extent to which actual option forfeitures differ, or are expected to differ, from the previous estimate, when it is material.

There were no options granted during the six months ended March 31, 2017 and 2016.

The following table summarizes stock option activity during the six months ended March 31, 2017:

NOTE 5 INCOME (LOSS) PER SHARE

Basic income (loss) per share data for each period presented is computed using the weighted-average number of shares of common stock outstanding during each such period. Diluted income (loss) per share data is computed using the weighted-average number of common and dilutive common-equivalent shares outstanding during each period. Dilutive common-equivalent shares consist of: (i) shares that would be issued upon the exercise of stock options and warrants, computed using the treasury stock method; and (ii) shares of nonvested restricted stock. The Company calculated the potential diluted earnings per share in accordance with ASC 260, as follows:

NOTE 7 RELATED PARTY TRANSACTIONS

Buying Agency and Supply Agreement

On March 12, 2012, the Company entered into a Buying Agency and Supply Agreement (the "Supply Agreement") with Forward Industries Asia-Pacific Corporation, a British Virgin Islands corporation ("Forward China"). The Supply Agreement, as amended, provides that, upon the terms and subject to the conditions set forth therein, Forward China will act as the Company's exclusive buying agent and supplier of Products (as defined in the Supply Agreement) in the Asia Pacific region. The Company purchases products at Forward China's cost and also pays to Forward China a monthly service fee equal to the sum of: (i) \$100,000; and (ii) 4% of "Adjusted Gross Profit", which is defined as the selling price less the cost from Forward China. The amended Supply Agreement expires on September 8, 2018, subject to renewal. Terence Bernard Wise, Chief Executive Officer and Chairman of the Company, is a principal of Forward China. In addition, Jenny P. Yu, a Managing Director of Forward China, beneficially owns more than 5% of the Company's shares of common stock. The Company recognized approximately \$344,000 and \$366,000 during the three months ended March 31, 2017 and 2016, respectively, and approximately \$707,000 and \$739,000 during the six months ended March 31, 2017 and 2016, respectively, in service fees paid to Forward China, which are included as a component of cost of goods sold in the accompanying condensed consolidated statements of operations and comprehensive income (loss). During the three and six months ended March 31, 2017, the Company received commissions from Forward China of \$0 and \$12,904, respectively, which is included in net revenues. As a result of the continued decrease in the Company's net revenues, Forward China has agreed to forgo its rights to the 4% portion of the service fee under the Supply Agreement beginning with the third fiscal quarter until the end of fiscal year 2017. The Company and Forward China are currently negotiating a revised service fee under the Agreement.

NOTE 8 LEGAL PROCEEDINGS

From time to time, the Company may become a party to legal actions or proceedings in the ordinary course of its business. As of March 31, 2017, there were no such actions or proceedings, either individually or in the aggregate, that, if decided adversely to the Company's interests, the Company believes would be material to its business.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our unaudited condensed consolidated financial statements, and the notes thereto, and other financial information appearing elsewhere in this Quarterly Report on Form 10-Q and the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2016. The following discussion and analysis compares our consolidated results of operations for the three and six months ended March 31, 2017 (the “2017 Quarter” and “2017 Period”, respectively) with those for the three and six months ended March 31, 2016 (the “2016 Quarter” and “2016 Period”, respectively). All figures in the following discussion are presented on a consolidated basis. All dollar amounts and percentages presented herein have been rounded to approximate values.

Business Overview

Forward Industries, Inc. designs and distributes carry and protective solutions, primarily for hand held electronic devices, including soft-sided carrying cases, bags, clips, hand straps, protective plates and other accessories made of leather, nylon, vinyl, plastic, PVC and other synthetic materials. Our principal customer market is original equipment manufacturers, or “OEMs” (or the contract manufacturing firms of these OEM customers), that either package our products as accessories “in box” together with their branded product offerings, or sell them through their retail distribution channels. Our OEM products include carrying cases and other accessories for blood glucose monitoring kits and a variety of other portable electronic and non-electronic products (such as sporting and recreational products, bar code scanners, smartphones, GPS and location devices, tablets, firearms and other products). Our carrying cases are designed to enable these devices to be stowed in a pocket, handbag, briefcase, or backpack, clipped to a belt or shoulder strap, or strapped to an arm, while protecting the consumer’s electronic or other product from scratches, dust, and mishandling. Our OEM customers are located in: (i) the Asia-Pacific Region, which we refer to as the “APAC Region”; (ii) Europe, the Middle East, and Africa, which we refer to as the “EMEA Region”; and (iii) the Americas. We do not manufacture any of our OEM products and source substantially all of our OEM products from independent suppliers in China, through Forward China (refer to Note 7 to the unaudited condensed consolidated financial statements – Buying Agency and Supply Agreement).

During the second quarter of fiscal 2016, we began entering into supply agreements with our major healthcare customers. By the end of fiscal 2016, we had entered into supply agreements with all four of our major healthcare customers. Although there are no minimum purchase requirements, the agreements provide the framework and pricing for supplying the customers with our carrying cases.

Variability of Revenues and Results of Operation s

Because a high percentage of our net revenues is highly concentrated in four large customers, and because the volumes of these customers’ order flows to us are highly variable, having short lead times, our quarterly revenues, and consequently our results of operations, are susceptible to significant variability over a relatively short period of time.

Critical Accounting Policies and Estimates

We discuss the material accounting policies that are critical in making the estimates and judgments in our Annual Report on Form 10-K for the fiscal year ended September 30, 2016, under the caption “Management’s Discussion and Analysis—Critical Accounting Policies and Estimates”. There has been no material change in critical accounting policies or estimates since September 30, 2016.

Recent Accounting Pronouncements

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2017 COMPARED TO THE THREE MONTHS ENDED MARCH 31, 2016

Net Income (Loss)

Net loss in the 2017 Quarter was approximately (\$238,000) compared to net income of approximately \$144,000 in the 2016 Quarter. The 2017 Quarter change from net income to a net loss is primarily due to a decrease in net revenues of approximately \$2,492,000 as well as a decline in gross margin of 1.3%, which resulted in a decrease in gross profit of approximately \$484,000. This was partially offset by a decrease in general and administrative expenses of approximately \$60,000 and a decrease in sales and marketing expenses of approximately \$42,000.

Main Components of Net Income (Loss)

	<i>(amounts in thousands)</i>		
	2017 Quarter	2016 Quarter	Increase (Decrease)
Net revenues	\$ 4,533	\$ 7,025	\$ (2,492)
Gross profit	\$ 716	\$ 1,200	\$ (484)
Less:			
Sales and marketing expenses	390	432	(42)
General and administrative expenses	563	623	(60)
Other expense (income), net	1	1	-
Net Income (loss)	\$ (238)	\$ 144	\$ (382)

Net income (loss) per basic and diluted share was (\$0.03) per share for the 2017 Quarter and \$0.02 per share for the 2016 Quarter.

Net Revenues

Net revenues in the 2017 Quarter decreased \$2.5 million, or 35%, to \$4.5 million from \$7.0 million in the 2016 Quarter primarily due to lower revenues from Diabetic Products, partially offset by higher revenues from Other Products. The net revenues derived from our core diabetes kit cases continues to decline, primarily because our major customers face significant pricing pressure from competitors bringing out less expensive meters and also new innovative diabetic products which are not being sold with a meter case. As a result of the continued decrease in our net revenues, Forward China, which is controlled by our Chairman and Chief Executive Officer, has agreed to forgo its rights to the 4% portion of the service fee under the Forward China Supply Agreement (the "Agreement") beginning with the third fiscal quarter until the end of fiscal year 2017. The base monthly service fee payment of \$100,000 will still be due to Forward China. In the 2017 Quarter, the 4% portion of the service fee amounted to approximately \$44,000. The Company and Forward China are currently negotiating a revised service fee under the Agreement.

The tables below set forth revenues by channel, product line, and geographic location of our customers for the periods indicated:

Net Revenues for 2017 Quarter

	<i>(amounts in thousands)</i>			
	Americas	APAC	EMEA	Total
Diabetic products	\$ 2,057	\$ 1,070	\$ 669	\$ 3,796

Total net revenues	\$ 2,233	\$ 1,579	\$ 721	\$ 4,533

Net Revenues for 2016 Quarter

	<i>(amounts in thousands)</i>			
	Americas	APAC	EMEA	Total
Diabetic products	\$ 1,718	\$ 2,436	\$ 2,313	\$ 6,467
Other products	252	168	138	558
Total net revenues	\$ 1,970	\$ 2,604	\$ 2,451	\$ 7,025

Diabetic Product Revenues

We design and sell carrying cases for blood glucose diagnostic kits directly to OEMs (or their contract manufacturers). The OEM customer or its contract manufacturer packages our carry cases "in box" as a custom accessory for the OEM's blood glucose testing and monitoring kits, or to a lesser extent, sells them through its retail distribution channels.

Revenues from Diabetic Products decreased \$2.7 million to \$3.8 million in the 2017 Quarter, from \$6.5 million in the 2016 Quarter. The decrease was primarily due to lower revenues derived from all four of our major Diabetic Products' customers.

The following table sets forth our revenues by Diabetic Products' customers for the periods indicated:

	(amounts in thousands)		
	2017	2016	Increase
	Quarter	Quarter	(Decrease)
Diabetic Products Customer A	\$ 1,138	\$ 1,243	\$ (105)
Diabetic Products Customer B	1,063	2,005	(942)
Diabetic Products Customer C	998	2,390	(1,392)
Diabetic Products Customer D	470	793	(323)
All other Diabetic Products Customers	127	36	91
Totals	<u>\$ 3,796</u>	<u>\$ 6,467</u>	<u>\$ (2,671)</u>

Revenues from Diabetic Products represented 84% of our total net revenues in the 2017 Quarter compared to 92% of our total net revenues in the 2016 Quarter.

Other Product Revenues

We design and sell cases and protective solutions to OEMs for a diverse array of portable electronic devices (such as bar code scanners, GPS devices, cellular phones, tablets and cameras), as well as a variety of other products (such as sporting and recreational products and firearms) on a made-to-order basis that are customized to fit the products sold by our OEM customers.

Revenues of Other Products increased \$0.2 million to \$0.7 million in the 2017 Quarter from \$0.5 million in the 2016 Quarter. This is primarily due to overall net increases of \$0.1 million from several existing customers as well as the addition of \$0.1 million from some new customers. We will continue to focus on our sales and sales support teams in our attempt to expand and diversify our Other Products customer base.

Revenues from Other Products represented 16% of our net revenues in the 2017 Quarter compared to 8% of our total net revenues in the 2016 Quarter.

Gross Profit

The decrease in gross profit of approximately \$484,000 was driven by a year over year decline in net revenues of 35% as well as a decline in gross margins. The decline in gross margins results from pricing pressures from our customers. Our gross margin decreased to 15.8% in the 2017 Quarter compared to 17.1% in the 2016 Quarter.

Sales and Marketing Expenses

Sales and marketing expenses decreased approximately \$42,000, or 10%, to approximately \$390,000 in the 2017 Quarter compared to approximately \$432,000 in the 2016 Quarter, primarily due to decreased personnel expenses of approximately \$53,000, partially offset by increased other expenses of approximately \$13,000. Fluctuations in other components of "Sales and Marketing Expenses" were not material individually or in the aggregate.

General and Administrative Expenses

General and administrative expenses decreased approximately \$60,000, or 10%, to approximately \$563,000 in the 2017 Quarter from approximately \$623,000 in the 2016 Quarter, primarily due to decreased professional fees of approximately \$25,000, personnel expenses of approximately \$20,000, and depreciation of approximately \$10,000. Fluctuations in other components of "General and Administrative Expenses" were not individually material.

Other Expense (Income), Net

Other expense (income), net, consisting primarily of foreign exchange losses, was approximately \$0 in the 2017 Quarter compared to approximately \$1,000 in the 2016 Quarter.

For the three months ended March 31, 2017, the Company generated a net loss of approximately \$238,000. While the Company maintains significant net operating loss carryforwards, no income tax expense (benefit) was recognized as the Company's deferred tax provision is completely offset by a full valuation allowance.

RESULTS OF OPERATIONS FOR THE SIX MONTHS ENDED MARCH 31, 2017 COMPARED TO THE SIX MONTHS ENDED MARCH 31, 2016

Net Income (Loss)

Net loss in the 2017 Period was approximately (\$86,000) compared to net income of approximately \$388,000 in the 2016 Period. The 2017 Period change from net income to a net loss is primarily due to a decrease in net revenues of approximately \$3,039,000 as well as a decline in gross margin of 2.3%, which resulted in a decrease in gross profit of approximately \$848,000. This was partially offset by a decrease in general and administrative expenses of approximately \$308,000 and a decrease in sales and marketing expenses of approximately \$58,000.

	Main Components of Net Income (Loss)

Other expense (income), net	(3)	5	(8)
Net Income (loss)	\$ (86)	\$ 388	\$ (474)

Net income (loss) per basic share was (\$0.01) per share for the 2017 Period and \$0.05 per share for the 2016 Period. Net income (loss) per diluted share was (\$0.01) per share for the 2017 Period and \$0.04 per share for the 2016 Period.

Net Revenues

Net revenues in the 2017 Period decreased \$3.0 million, or 21%, to \$11.1 million from \$14.2 million in the 2016 Period primarily due to lower revenues from Diabetic Products, partially offset by higher revenues from Other Products. The net revenues derived from our core diabetes kit cases continues to decline, primarily because our major customers face significant pricing pressure from competitors bringing out less expensive meters and also new innovative diabetic products which are not being sold with a meter case. As mentioned above, as a result of the continued decrease in our net revenues, Forward China, which is controlled by our Chairman and Chief Executive Officer, has agreed to forgo its rights to the 4% portion of the service fee under the Agreement beginning with the third fiscal quarter until the end of fiscal year 2017. The base monthly service fee payment of \$100,000 will still be due to Forward China. In the 2017 Period, the 4% portion of the service fee amounted to approximately \$107,000. The Company and Forward China are currently negotiating a revised service fee under the Agreement.

The OEM customer or its contract manufacturer packages our carry cases “in box” as a custom accessory for the OEM’s blood glucose testing and monitoring kits, or to a lesser extent, sells them through its retail distribution channels.

Revenues from Diabetic Products decreased \$3.4 million to \$9.3 million in the 2017 Period, from \$12.7 million in the 2016 Period. The decrease was primarily due to lower revenues derived from three of our major Diabetic Products’ customers (Diabetic Products Customers B, C and D). The decrease was offset, in part, by higher revenues derived from our largest major Diabetic Products’ customers (Diabetic Products Customer A).

The following table sets forth our revenues by Diabetic Products’ customers for the periods indicated:

Revenues from Diabetic Products represented 84% of our total net revenues in the 2017 Period compared to 90% of our total net revenues in the 2016 Period.

Other Product Revenues

We design and sell cases and protective solutions to OEMs for a diverse array of portable electronic devices (such as bar code scanners, GPS devices, cellular phones, tablets and cameras), as well as a variety of other products (such as sporting and recreational products and firearms) on a made-to-order basis that are customized to fit the products sold by our OEM customers.

Revenues of Other Products increased \$0.3 million to \$1.8 million in the 2017 Period from \$1.5 million in the 2016 Period. This is primarily due to overall net increases of \$0.2 million from several existing customers as well as the addition of \$0.1 million from some new customers. We will continue to focus on our sales and sales support teams in our attempt to expand and diversify our Other Products customer base.

Revenues from Other Products represented 16% of our net revenues in the 2017 Period compared to 10% of our total net revenues in the 2016 Period.

Gross Profit

The decrease in gross profit of approximately \$848,000 was driven by a year over year decline in net revenues of 21% as well as a decline in gross margins. The decline in gross margins results from pricing pressures from our customers. Our gross margin decreased to 16.9% in the 2017 Period compared to 19.2% in the 2016 Period.

Sales and Marketing Expenses

Sales and marketing expenses decreased approximately \$58,000, or 7%, to approximately \$807,000 in the 2017 Period compared to approximately \$865,000 in the 2016 Period, primarily due to decreased personnel expenses of approximately \$112,000, partially offset by increased other expenses of approximately \$36,000 and increased travel and entertainment expenses of approximately \$18,000. Fluctuations in other components of “Sales and Marketing Expenses” were not material individually or in the aggregate.

General and Administrative Expenses

General and administrative expenses decreased approximately \$308,000, or 21%, to approximately \$1,157,000 in the 2017 Period from approximately \$1,465,000 in the 2016 Period, primarily due to decreased personnel expenses of approximately \$75,000, director fees (including share-based compensation) of approximately \$75,000, director expense reimbursement of approximately \$47,000, professional fees of approximately \$44,000, directors and officers insurance of approximately \$29,000, other costs of approximately \$26,000, and depreciation of approximately \$17,000. Fluctuations in other components of “General and Administrative Expenses” were not individually material.

Other Expense (Income), Net

Other expense (income), net, consisting primarily of foreign exchange losses, was approximately (\$3,000) in the 2017 Period compared to approximately \$5,000 in the 2016 Period.

For the six months ended March 31, 2017, the Company generated a net loss of approximately \$86,000. While the Company maintains significant net operating loss carryforwards, no income tax expense (benefit) was recognized as the Company's deferred tax provision is completely offset by a full valuation allowance.

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are our operations. Our working capital would be adversely affected by any: (i) additional operating losses; (ii) increases in accounts receivable and inventories arising in the ordinary course of business; and (iii) material increases in expenses. Historically, our sources of liquidity have been adequate to satisfy working capital requirements arising in the ordinary course of business. We anticipate that our liquidity and financial resources for the next twelve months from the date of the filing of this Form 10-Q will be adequate to manage our operating and financial requirements.

At March 31, 2017, our current ratio (current assets divided by current liabilities) was 3.9; our quick ratio (current assets less inventories divided by current liabilities) was 2.9; and our working capital (current assets less current liabilities) was \$8.2 million. As of March 31, 2017, we had no short or long-term debt outstanding. We do not anticipate the need to purchase additional material capital assets in order to carry out our business.

During the six months ended March 31, 2017 and 2016, our sources and uses of cash were as follows:

Cash Flows from Operating Activities

During the 2017 Period, cash used in operating activities of approximately \$1,111,000 resulted primarily from a decrease in accounts payable (including due to Forward China) of approximately \$1,083,000, a decrease in accrued expenses and other current liabilities of approximately \$296,000, an increase in inventories of approximately \$156,000 and a net loss of approximately \$86,000, partially offset by a decrease in accounts receivable of approximately \$439,000, and the add back of non-cash share-based compensation of approximately \$79,000.

During the 2016 Period, cash used in operating activities of approximately \$725,000 resulted primarily from an increase in accounts receivable of approximately \$532,000, a decrease in accounts payable (including due to Forward China) of approximately \$527,000, and a decrease in accrued expenses and other current liabilities of approximately \$357,000, partially offset by net income of approximately \$388,000, a decrease in inventories of approximately \$180,000, and the add back of non-cash share-based compensation of approximately \$134,000.

Cash Flows from Investing Activities

In the 2017 Period, there was no cash used in investing activities.

In the 2016 Period, cash used in investing activities of approximately \$46,000 resulted from purchases of property and equipment.

Cash Flows from Financing Activities

In the 2017 Period, there was no cash used in financing activities.

In the 2016 Period, cash used in financing activities of approximately \$2,000 resulted from the repurchase of restricted stock.

Cautionary Note Regarding Forward-Looking Statements

This report contains “forward-looking statements”, as such term is used within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our liquidity and working capital. Forward-looking statements can be identified by words such as “anticipates,” “intends,” “plans,” “seeks,” “believes,” “estimates,” “expects” and similar references to future periods. Forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. We caution you therefore against relying on any of these forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. Important factors that could cause actual results to differ materially from those in the forward-looking statements include the failure to receive material orders, failure to diversify the industries in which we sell our products, potential imposed tariffs or other restrictions placed on Chinese imports by the U.S. government, and continued pricing pressure on our products. Further information on our risk factors is contained in our filings with the SEC, including our Form 10-K for the year ended September 30, 2016. Any forward-looking statement made by us speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. Our management carried out an evaluation, with the participation of our Principal Executive Officer and Principal Financial Officer, required by Rule 13a-15 and Rule 15d-15 of the Securities Exchange Act of 1934 (the “Exchange Act”) of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act. Based on their evaluation, our management has concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There were no changes in our internal control over financial reporting as defined in Rule 13a-15(f) and Rule 15d-15(f) under the Exchange Act that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations of the Effectiveness of Controls and Procedures. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations of any control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, the Company may become a party to legal actions or proceedings in the ordinary course of its business. CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

I, Terence Wise, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Forward Industries, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
