STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES
(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of State Auto Financial Corporation and Subsidiaries (“State Auto Financial” or the “Company”) have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles (“GAAP”) for complete financial statements. In the opinion of the Company, all adjustments (consisting of normal, recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine month period ended September 30, 2016 are not necessarily indicative of the results that may be expected for the year ending December 31, 2016. The balance sheet at December 31, 2015 has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2015 (the “2015 Form 10-K”). Capitalized terms used herein and not otherwise defined shall have the meaning ascribed to them in the 2015 Form 10-K.

Adoption of Recent Accounting Pronouncements

Simplifying the Presentation of Debt Issuance Costs

The amendments in this guidance simplify the presentation of debt issuance costs by requiring them to be presented in the balance sheet as a direct deduction from the carrying amount of the related recognized debt liability, consistent with debt discounts. The Company adopted this guidance at January 1, 2016 on a retrospective basis and it resulted in a \$0.3 million decrease to notes payable and accrued investment income and other assets at December 31, 2015.

Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)

The amendments in this guidance remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years and should be applied retrospectively to all periods presented. The Company adopted this guidance at January 1, 2016 and it did not have a material impact on the condensed consolidated financial statements.

Pending Adoption of Recent Accounting Pronouncements

Improvements to Employee Share-Based Payment Accounting

The amendments in this guidance simplify the accounting for share-based payment award transactions including: income tax consequences, classification of awards as either equity or liabilities, classification of excess tax benefits, and classification on the statement of cash flows. The guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years, and early adoption is permitted. The Company is currently evaluating the requirements of the guidance and has not yet determined its effect on the Company’s results of operations, financial position or liquidity.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES
(a majority-owned subsidiary of State Automobile Mutual Insurance Company)
Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

The Company regularly monitors its investments that have fair values less than cost or amortized cost for signs of other-than-temporary impairment, an assessment that requires significant management judgment regarding the evidence known. Such judgments could change in the future as more information becomes known, which could negatively impact the amounts reported. Among the factors that management considers for fixed maturity securities are the financial condition of the issuer including receipt of scheduled principal and interest cash flows, and intent to sell, including if it is more likely than not that the Company will be required to sell the investments before recovery. When a fixed maturity has been determined to have an other-than-temporary impairment, the impairment charge is separated into an amount representing the credit loss, which is recognized in earnings as a realized loss, and the amount related to non-credit factors, which is recognized in accumulated other comprehensive income. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

Among the factors that management considers for equity securities and other invested assets are the length of time and/or the significance of decline below cost, the Company's ability and intent to hold these securities through their recovery periods, the current financial condition of the issuer and its future business prospects, and the ability of the market value to recover to cost in the near term. When an equity security or other invested asset has been determined to have a decline in fair value that is other-than-temporary, the cost basis of the security is adjusted to fair value. This results in a charge to earnings as a realized loss, which is not reversed for subsequent recoveries in fair value. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

The following table sets forth the amortized cost and fair value of available-for-sale fixed maturities by contractual maturity at September 30, 2016 :

<i>(\$ millions)</i>	Amortized cost	Fair value
Due in 1 year or less	\$ 67.1	\$ 68.1
Due after 1 year through 5 years	564.0	579.4
Due after 5 years through 10 years	275.3	286.1

U.S. government agencies mortgage-backed securities	569.7	590.9
<i>Total</i>	<u>\$ 2,061.0</u>	<u>\$ 2,143.3</u>

Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay the obligations with or without call or prepayment penalties.

At September 30, 2016, State Auto P&C had U.S. government agencies mortgage-backed fixed maturity securities, with a carrying value of approximately \$106.5 million, that were pledged as collateral for the FHLB Loans (as defined in Note 3). In accordance with the terms of the FHLB Loans, State Auto P&C retains all rights regarding these pledged securities.

Fixed maturities with fair values of \$9.2 million and \$8.8 million were on deposit with insurance regulators as required by law at September 30, 2016 and December 31, 2015, respectively. The Company retains all rights regarding these securities.

3. Fair Value of Financial Instruments

Below is the fair value hierarchy that categorizes into three levels the inputs to valuation techniques that are used to measure fair value:

- Level 1 includes observable inputs which reflect quoted prices for identical assets or liabilities in active markets at the measurement date.
- Level 2 includes observable inputs for assets or liabilities other than quoted prices included in Level 1, and it includes valuation techniques which use prices for similar assets and liabilities.
- Level 3 includes unobservable inputs which reflect the reporting entity's estimates of the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The Company utilizes one nationally recognized pricing service to estimate the majority of its available-for-sale investment portfolio's fair value. The Company obtains one price per security and the processes and control procedures employed by the Company are designed to ensure the value is accurately recorded on an unadjusted basis. Through discussions with the pricing service, the Company gains an understanding of the methodologies used to price the different types of securities, that the data and the valuation methods utilized are appropriate and consistently applied, and that the assumptions are reasonable and representative of fair value. To validate the reasonableness of the valuations obtained from the pricing service, the Company compares to other fair value pricing information gathered from other independent pricing sources. At September 30, 2016 and December 31, 2015, the Company did not adjust any of the prices received from the pricing service.

Transfers between level categorizations may occur due to changes in the availability of market observable inputs. Transfers in and out of level categorizations are reported as having occurred at the beginning of the quarter in which the transfer occurred. There were no transfers between level categorizations during the three and nine months ended September 30, 2016 and 2015.

The following sections describe the valuation methods used by the Company for each type of financial instrument it holds that are carried at fair value.

Fixed Maturities

The Company utilizes a third party pricing service to estimate fair value measurements for the majority of its fixed maturities. The fair value estimate of the Company's fixed maturity investments are determined by evaluations that are based on observable market information rather than market quotes. Inputs to the evaluations include, but are not limited to, market prices from recently completed transactions and transactions of comparable securities, interest rate yield curves, credit spreads, and other market-observable information. The fixed maturity portfolio pricing obtained from the pricing service is reviewed for reasonableness. The Company regularly selects a random sample of security prices which are compared to one or more alternative pricing sources for reasonableness. Any discrepancies with the pricing are returned to the pricing service for further explanation and, if necessary, adjustments are made. To date, the Company has not identified any significant discrepancies in the pricing provided by its third party pricing service. Investments valued using these inputs include U.S. treasury securities and obligations of U.S. government agencies, obligations of states and political subdivisions, corporate securities (except for a security discussed below), and U.S. government agencies mortgage-backed securities. All unadjusted estimates of fair value for fixed maturities priced by the pricing service are included in the amounts disclosed in Level 2 of the hierarchy. If market inputs are unavailable, then no fair value is provided by the pricing service. For these securities, fair value is determined either by requesting brokers who are knowledgeable about these securities to provide a quote; or the Company internally determines the fair values by employing widely accepted pricing valuation models, and depending on the level of observable market inputs, renders the fair value estimate as Level 2 or Level 3. The Company holds one corporate fixed maturity security included in Level 3 and estimates its fair value using the present value of the future cash flows. Due to the limited amount of observable market information for this security, the Company includes the fair value estimate in Level 3.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES
(a majority-owned subsidiary of State Automobile Mutual Insurance Company)
Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

Equities

The fair value of each equity security is based on an observable market price for an identical asset in an active market and is priced by the same pricing service discussed above. All equity securities are recorded using unadjusted market prices and have been disclosed in Level 1.

Other Invested Assets

Included in other invested assets are two international funds (“the funds”) that invest in equity securities of foreign issuers and are managed by third party investment managers. The funds had a fair value of \$80.7 million and \$77.0 million at September 30, 2016 and December 31, 2015, respectively, which was determined using each fund’s net asset value. The Company employs procedures to assess the reasonableness of the fair value of the funds including obtaining and reviewing each fund’s audited financial statements. There are no unfunded commitments related to the funds. The Company may not sell its investment in the funds; however, the Company may redeem all or a portion of its investment in the funds at net asset value per share with the appropriate prior written notice. In accordance with Accounting Standard Codification 820-10, these investments that are measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. Fair values presented here are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the condensed consolidated balance sheets.

The remainder of the Company’s other invested assets consist primarily of holdings in publicly-traded mutual funds. The Company believes that its prices for these publicly-traded mutual funds based on an observable market price for an identical asset in an active market reflect their fair values and consequently these securities have been disclosed in Level 1.

Financial Instruments Disclosed, But Not Carried, At Fair Value

Other Invested Assets

Included in other invested assets are common stock of the Federal Home Loan Bank of Cincinnati (the "FHLB") and the Trust Securities. The Trust Securities and FHLB common stock are carried at cost, which approximates fair value. The fair value of the FHLB common stock at September 30, 2016 was \$4.9 million and the fair value of the Trust Securities was \$0.5 million. The investments have been placed in Level 3 of the fair value hierarchy.

Notes Receivable from Affiliate

In May 2009, the Company entered into two separate credit agreements with State Automobile Mutual Insurance Company (“State Auto Mutual”) pursuant to which it loaned State Auto Mutual a total of \$70.0 million. The Company estimates the fair value of the notes receivable from affiliate using market quotations for U.S. treasury securities with similar maturity dates and applies an appropriate credit spread. Consequently this has been placed in Level 2 of the fair value hierarchy.

	September 30, 2016			December 31, 2015		
	Carrying value	Fair value	Interest rate	Carrying value	Fair value	Interest rate
Notes receivable from affiliate	\$ 70.0	\$ 76.2	7.00%	\$ 70.0	\$ 74.1	7.00%

Notes Payable

Included in notes payable are the FHLB Loans, consisting of the 2013 FHLB Loan and the 2016 FHLB Loan (as defined in Note 5), and Subordinated Debentures. The Company estimates the fair value of the FHLB Loans by discounting cash flows using a borrowing rate currently available to the Company for loans with similar terms. The FHLB Loans have been placed in Level 3 of the fair value hierarchy. The carrying amount of the Subordinated Debentures approximates its fair value as the interest rate adjusts quarterly and has been disclosed in Level 3.

5. Notes Payable

FHLB Loan

State Auto Financial's subsidiary, State Auto P&C, is a member of the FHLB, and in September 2016 entered into a new term loan with the FHLB in the principal amount of \$21.5 million (the "2016 FHLB Loan"). The 2016 FHLB Loan is a five-year term loan and may be called (prepaid) after three years with no prepayment penalty. The 2016 FHLB Loan provides for interest-only payments during its term, with principal due in full at maturity. The interest rate is fixed over the term of the loan at 1.73%. The 2016 FHLB Loan is fully secured by a pledge of specific investment securities of State Auto P&C.

6. Income Taxes

The following table sets forth the reconciliation between actual federal income tax expense and the amount computed at the indicated statutory rate for the three and nine months ended September 30, 2016 and 2015 :

10. Segment Information

The Company has four reportable segments: personal insurance, business insurance, specialty insurance and investment operations. The reportable insurance segments are business units managed separately because of the differences in the type of customers they serve, the products they provide or services they offer. The insurance segments market a broad line of property and casualty insurance products throughout the United States through independent insurance agencies, which include retail agents and wholesale brokers. The personal insurance segment provides primarily personal automobile and homeowners to the personal insurance market. The business insurance segment provides primarily commercial automobile, commercial multi-peril, fire & allied, general liability, and workers' compensation insurance covering small-to-medium sized commercial exposures. The specialty insurance segment provides commercial coverages that require specialized product underwriting, claims handling or risk management services through a distribution channel of retail agents and wholesale brokers, which may include program administrators and other specialty sources. The investment operations segment, managed by Stateco, provides investment services.

The Company evaluates the performance of its insurance segments using industry financial measurements based on Statutory Accounting Practices ("SAP"), which include loss and loss adjustment expense ratios, underwriting expense ratios, combined ratios, statutory underwriting gain (loss), net premiums earned and net written premiums. One of the most significant differences between SAP and GAAP is that SAP requires all underwriting expenses to be expensed immediately and not deferred and amortized over the same period the premium is earned.

The investment operations segment is evaluated based on investment returns of assets managed by Stateco. Asset information by segment is not reported for the insurance segments because the Company does not produce such information internally.

11. Contingencies and Litigation

In accordance with the Contingencies Topic of the Financial Accounting Standards Board's Accounting Standards Codification, the Company accrues for a litigation-related liability when it is probable that such a liability has been incurred and the amount can be reasonably estimated. The Company reviews all litigation on an ongoing basis when making accrual and disclosure decisions. For certain legal proceedings, the Company cannot reasonably estimate losses or a range of loss, if any, particularly for proceedings that are in their early stages of development or where the plaintiffs seek indeterminate damages. Various factors, including, but not limited to, the outcome of potentially lengthy discovery and the resolution of important factual questions, may need to be determined before probability can be established or before a loss or range of loss can be reasonably estimated. If the loss contingency in question is not both probable and reasonably estimable, the Company does not establish an accrual and the matter will continue to be monitored for any developments that would make the loss contingency both probable and reasonably estimable. Based on currently available information known to the Company, it believes that its reserves for litigation-related liabilities are reasonable. However, in the event that a legal proceeding results in a substantial judgment against, or settlement by, the Company, there can be no assurance that any resulting liability or financial commitment would not have a material adverse effect on the financial condition, results of operations or cash flows of the consolidated financial statements of the Company.

The Company is involved in lawsuits in the ordinary course of its business arising out of or otherwise related to its insurance policies. Additionally, from time to time the Company may be involved in lawsuits, including class actions, in the ordinary course of business but not arising out of or otherwise related to its insurance policies. These lawsuits are in various stages of development. The Company generally will contest these matters vigorously but may pursue settlement if appropriate. Based on currently available information, the Company does not believe it is reasonably possible that any such lawsuit or related lawsuits will be material to its results of operations or have a material adverse effect on its consolidated financial position, results of operations or cash flows.

Additionally, the Company may be impacted by adverse regulatory actions and adverse court decisions where insurance coverages are expanded beyond the scope originally contemplated in its insurance policies. The Company believes that the effects, if any, of such regulatory actions and published court decisions are not likely to have a material adverse effect on its consolidated financial position, results of operations or cash flows.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The term “State Auto Financial” as used below refers only to State Auto Financial Corporation and the terms “our Company,” “we,” “us,” and “our” as used below refer to State Auto Financial Corporation and its consolidated subsidiaries. The term “ third quarter ” as used below refers to the three months ended September 30, for the time period then ended. For a glossary of terms for State Auto Financial Corporation and its subsidiaries and affiliates and a glossary of selected insurance and accounting terms, see the section entitled “Important Defined Terms Used in this Form 10-K” included in our Annual Report on Form 10-K for the year ended December 31, 2015 (the “ 2015 Form 10-K”).

The discussion and analysis presented below relates to the material changes in financial condition and results of operations for our consolidated balance sheets as of September 30, 2016 and December 31, 2015 , and for the consolidated statements of income for the three and nine month periods ended September 30, 2016 and 2015 . This discussion and analysis should be read together with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in the 2015 Form 10-K, and in particular the discussions in those sections thereof entitled “Overview,” “Executive Summary” and “Critical Accounting Policies.” Readers are encouraged to review the entire 2015 Form 10-K, as it includes information regarding our Company not discussed in this Form 10-Q. This information will assist in your understanding of the discussion of our current period financial results.

The discussion and analysis presented below includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements generally can be identified by the use of forward-looking terminology such as “may,” “will,” “expect,” “intend,” “estimate,” “anticipate,” “project,” “believe” or “continue” or the negative thereof or variations thereon or similar terminology. Forward-looking statements speak only as of the date the statements were made available. Although we believe that the expectations reflected in forward-looking statements have a reasonable basis, we can give no assurance that these expectations will prove to be correct. Forward-looking statements are subject to risks and uncertainties that could cause actual events or results to differ materially from those expressed in or implied by the statements. For a discussion of the most significant risks and uncertainties that could cause our actual results to differ materially from those projected, see “Risk Factors” in Item 1A of the 2015 Form 10-K, updated by Part II, Item 1A of this Form 10-Q. Except to the limited extent required by applicable law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The Company has four reportable segments: personal insurance, business insurance, specialty insurance and investment operations. The reportable insurance segments are business units managed separately because of the differences in the type of customers they serve or products they provide or services they offer. The insurance segments market a broad line of property and casualty insurance products throughout the United States through independent insurance agencies, which include retail agents and wholesale brokers. The personal insurance segment provides primarily personal automobile and homeowners to the personal insurance market. The business insurance segment provides primarily commercial automobile, commercial multi-peril, fire & allied, general liability, and workers' compensation insurance covering small-to-medium sized commercial exposures. The specialty insurance segment provides commercial coverages that require specialized product underwriting, claims handling or risk management services through a distribution channel of retail agents and wholesale brokers, which may include program administrators and other specialty sources. The investment operations segment, managed by Stateco, provides investment services. See “Personal and Business Insurance” and “Specialty Insurance” in Item 1 of the 2015 Form 10-K for more information about our insurance segments. Financial information about our reportable segments for 2016 is set forth in Note 10 of our condensed consolidated financial statements included in Item 1 of this Form 10-Q.

POOLING ARRANGEMENT

The STFC Pooled Companies and the Mutual Pooled Companies participate in a quota share reinsurance pooling arrangement referred to as the “Pooling Arrangement.” Under the Pooling Arrangement, State Auto Mutual assumes premiums, losses and expenses from each of the Pooled Companies and in turn cedes to each of the Pooled Companies a specified portion of premiums, losses and expenses based on each of the Pooled Companies’ respective pooling percentages. State Auto Mutual then retains the balance of the pooled business.

RESULTS OF OPERATIONS

Our pre-tax income for the three months ended September 30, 2016 was \$7.4 million and pre-tax loss for the nine months ended September 30, 2016 was \$13.9 million compared to pre-tax income of \$29.9 million and \$66.5 million, respectively, for the same 2015 periods. The quarter and year to date decreases were primarily due to an increase in losses, both catastrophe and non-catastrophe, when compared to the same 2015 periods. For the three and nine months ended September 30, 2016, we reported net realized gains on investments of \$8.8 million and \$16.6 million, respectively, compared to \$10.8 million and \$20.4 million, respectively, for the same 2015 periods.

The following table sets forth certain key performance indicators we use to monitor our operations for the three and nine months ended September 30, 2016 and 2015 :

Insurance Segments

We measure our top-line growth for our insurance segments based on net written premiums, which provide us with an indication of how well we are doing in terms of revenue growth before it is actually earned. Our policies provide a fixed amount of coverage for a stated period of time, often referred to as the “policy term.” As such, our written premiums are recognized as earned ratably over the policy term. The unearned portion of written premiums, called unearned premiums, is reflected on our balance sheet as a liability and represents our obligation to provide coverage for the unexpired term of the policies.

Insurance industry regulators require our insurance subsidiaries to report their financial condition and results of operations using SAP. We use SAP financial results, along with industry standard financial measures determined on a SAP basis and certain measures determined on a GAAP basis, to internally monitor the performance of our insurance segments and reward our employees.

One of the more significant differences between GAAP and SAP is that SAP requires all underwriting expenses to be expensed immediately and not deferred over the same period that the premium is earned. In converting SAP underwriting results to GAAP underwriting results, acquisition costs are deferred and amortized over the periods the related written premiums are earned. For a discussion of deferred acquisition costs, see “Critical Accounting Policies – Deferred Acquisition Costs” section included in Item 7 of our 2015 Form 10-K.

All references to financial measures or components thereof in this discussion are calculated on a GAAP basis, unless otherwise noted.

The personal insurance segment's net written premiums for the three months ended September 30, 2016 increased 1.4% and were flat year to date when compared to the same 2015 periods (Table 1). While total policies in force continued to decline in the first nine months of 2016, new business policy counts were up, and personal auto and homeowners new business premiums increased in the first nine months of 2016 when compared to the same 2015 period. During the first half of 2016, we increased the number of personal lines agency appointments and conducted pricing reviews designed to improve personal lines production.

The personal insurance segment's SAP catastrophe loss ratios for the three and nine months ended September 30, 2016 were 3.2% and 10.8% , respectively, compared to 3.9% and 7.5% , respectively, for the same 2015 periods (Tables 2 - 3). Year to date, weather events classified as catastrophes have generally been more severe than those experienced in 2015. During the second quarter of 2016 we were impacted by storms in Texas, primarily wind and hail, which accounted for slightly less than half of the personal insurance segment's catastrophe losses for the nine months ended September 30, 2016.

The personal insurance segment's SAP non-catastrophe loss and ALAE ratios for the three and nine months ended September 30, 2016 were 61.6% and 58.0% , respectively, compared to 53.5% and 52.5% , respectively, for the same 2015 periods (Tables 2 - 3). The SAP non-catastrophe loss and ALAE ratios for the three and nine months ended September 30, 2016 increased 8.1 points and 5.5 points, respectively, when compared to the same 2015 periods (Tables 2 - 3) primarily due to personal auto. Personal auto results for the quarter and year were impacted by an increased level of bodily injury severity trends which resulted in increases in ultimate loss and ALAE estimates for prior accident years, primarily 2014 and 2015, when compared to the same 2015 periods. The personal auto current accident year loss and ALAE estimates reflect the impact of continued increased bodily injury severity trends as well as pricing and underwriting actions we have taken in the last 15 months.

Net written premiums for the business insurance segment for the three and nine months ended September 30, 2016 decreased 6.2% and 6.3% , respectively, when compared to the same 2015 periods (Table 4). The decrease for the quarter was due primarily to (i) our decision to exit our large account business and (ii) rate actions to improve profitability in commercial auto. In addition to these same factors, the year-to-date decrease was attributable to changes made to our regional sales teams during the first quarter of 2016, including staff reductions and reassignment of agency relationships among the remaining staff.

The business insurance segment's SAP catastrophe loss ratios for the three and nine months ended September 30, 2016 were 2.9% and 5.0%, respectively, compared to 0.9% and 3.8%, respectively, for the same 2015 periods (Tables 5 - 6). Year to date, the business insurance segment's SAP catastrophe loss ratio was impacted by the Texas storms described in the personal insurance segment discussion above.

The business insurance segment's SAP non-catastrophe loss and ALAE ratios for the three and nine months ended September 30, 2016 were 66.8% and 61.9% , respectively, compared to 59.1% and 57.4% , respectively, for the same 2015 periods (Tables 5 - 6). The SAP non-catastrophe loss and ALAE ratios for the three and nine months ended September 30, 2016 increased 7.7 points and 4.5 points, respectively, when compared to the same 2015 periods (Tables 5 - 6), primarily due to increase in fire & allied non-catastrophe losses. The fire & allied ratio increases were primarily due to two large fire losses that occurred during the third quarter 2016. For the three months ended September 30, 2016, the commercial auto ratio improved when compared to the same 2015 period (Tables 5), primarily due to less adverse development of prior accident year losses. The bodily severity trend increases we noted beginning in the third quarter 2015 have continued through the current quarter. Year to date, the commercial auto ratio increase was attributable to increased bodily injury severity trends when compared to the same 2015 period, which resulted in increases in ultimate loss and ALAE estimates for prior accident years, primarily 2014 and 2015, as well as higher current accident year loss and ALAE estimates.

Somewhat offsetting the increases in the SAP non-catastrophe loss and ALAE ratios for the three and nine months ended September 30, 2016 were fewer and less severe losses in the commercial-multi peril line when compared to the same 2015 periods.

Net written premiums for the specialty insurance segment for the three and nine months ended September 30, 2016 increased 33.4% and 25.0% , respectively, compared to the same 2015 periods (Table 7). E&S casualty net written premiums increased 62.9% and 60.1%, respectively, for the three and nine months ended September 30, 2016, due to (i) continued organic growth

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES
(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

within our general liability and umbrella lines and (ii) a change in the structure of the reinsurance treaty covering casualty risks within the specialty insurance segment (see "Reinsurance Arrangements" in this Item 2 for further information). Programs unit net written premiums increased 15.7% and 21.3%, respectively, for the three and nine months ended September 30, 2016 due to new programs added during the second half of 2015 and growth of existing programs. E&S property net written premiums for the nine months ended September 30, 2016 declined 13.2% compared to the same period in 2015 as continuing intense competition within the catastrophe-exposed property marketplace has contributed to less favorable pricing opportunities.

The specialty insurance segment's SAP non-catastrophe loss and ALAE ratio for the three and nine months ended September 30, 2016 were 63.2% and 70.7% , respectively, compared to 60.2% and 57.2% , respectively, for the same 2015 periods (Tables 8 - 9). The increase for the three months ended September 30, 2016 compared to the same 2015 period is primarily due to the shift in the mix of business attributable to net written premium and exposure growth within the E&S casualty unit. The mix of business shift also contributed to the non-catastrophe loss and ALAE ratio increase for the nine months ended September 30, 2016 compared to the same 2015 period, as did higher losses within the Programs unit. Elevated severity trends within programs with commercial auto exposures contributed to (i) higher 2016 accident year loss and ALAE ratios and (ii) adverse development of prior accident year losses.

During the quarter ended September 30, 2016, management completed an evaluation of business written within the Programs unit and determined this business was not core to our strategy. As a result, management decided to exit the programs business in order to further capitalize on our expertise within the E&S casualty and E&S property segments of the specialty marketplace. As a result of this decision, we will stop writing program business by the middle of 2017; however, exposure to the risks underlying this business will continue as the premiums are earned through mid-2018. Consistent with our past practices with respect to terminated programs, we will take the appropriate steps to implement more restrictive underwriting and referral guidelines in order to mitigate the potential for adverse selection and we will continue to conduct periodic underwriting audits of the program managers.

<i>Total losses and loss expenses payable, net of reinsurance recoverable on losses and loss expenses payable</i>	<u>\$ 1,161.5</u>	<u>\$ 1,047.1</u>	<u>\$ 114.4</u>

Losses and loss expenses payable increased \$114.4 million since December 31, 2015, primarily due to (i) exposure growth in workers' compensation and E&S casualty, (ii) increased bodily injury severity trends which resulted in increases in ultimate loss and ALAE estimates for current and prior accident years in personal auto, commercial auto and programs with auto exposures, and (iii) seasonality of weather-related catastrophe losses.

Losses and loss expenses payable for the nine months ended September 30, 2016 do not reflect the impact of Hurricane Matthew. We currently estimate the financial impact of Hurricane Matthew on fourth quarter results to be between \$8.0 million and \$10.0 million.

We conduct quarterly reviews of loss development reports and make judgments in determining the reserves for ultimate losses and loss expenses payable. Several factors are considered by us when estimating ultimate liabilities, including consistency in relative case reserve adequacy, consistency in claims settlement practices, recent legal developments, historical data, actuarial projections, accounting projections, exposure changes, anticipated inflation, current business conditions, catastrophe developments, late reported claims, and other reasonableness tests.

The risks and uncertainties inherent in our estimates include, but are not limited to, actual settlement experience different from historical data, trends, changes in business and economic conditions, court decisions creating unanticipated liabilities, ongoing interpretation of policy provisions by the courts, inconsistent decisions in lawsuits regarding coverage and additional information discovered before settlement of claims. Our results of operations and financial condition could be impacted, perhaps significantly, in the future if the ultimate payments required for claims settlement vary from the liability currently recorded. For a discussion of our reserving methodologies, see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies – Losses and Loss Expenses Payable" in Item 7 of the 2015 Form 10-K.

Acquisition and Operating Expenses

Our GAAP acquisition and operating expense ratios were 33.7% and 33.5% , respectively, for the three and nine months ended September 30, 2016 compared to 34.2% and 33.7% , respectively, for the same 2015 periods. The ratio decreased 0.5 points for the three months ended September 30, 2016 , when compared to the same 2015 period, primarily due to decreases in personnel costs and incentive compensation.

Investment Operations Segment

Our investments in fixed maturities, equity securities and certain other invested assets are reported as available-for-sale and carried at fair value. The unrealized holding gains or losses, net of applicable deferred taxes, are included as a separate component of stockholders' equity as accumulated other comprehensive income and as such are not included in the determination of net income.

We have investment policy guidelines with respect to purchasing fixed maturity investments for our insurance subsidiaries which preclude investments in bonds that are rated below investment grade by a recognized rating service at the time of purchase. Our fixed maturity portfolio is composed of high quality, investment grade issues, consisting primarily of debt issues rated AAA, AA or A. We obtain investment ratings from Moody's, Standard & Poor's and Fitch. If there is a split rating, we assign the lowest rating obtained. At September 30, 2016 , there were two fixed maturity investments rated below investment grade in our available-for-sale investment portfolio.

For further discussion regarding the management of our investment portfolio, see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Results of Operations – Investment Operations Segment" in Item 7 of the 2015 Form 10-K.

Net realized gains decreased \$2.0 million and \$3.8 million, respectively, for the three and nine months ended September 30, 2016 when compared to the same 2015 period, partially driven by an increase in realized gains in the fixed income portfolio in the third quarter of 2015 as a result of reducing our TIPS position due to our inflation outlook. Year to date net realized gains were also impacted by OTTI recognized on our fixed maturity portfolio (discussed below).

When a fixed maturity security has been determined to have an other-than-temporary decline in fair value, the impairment charge is separated into an amount representing the credit loss, which is recognized in earnings, and the amount related to non-credit factors, which is recognized in accumulated other comprehensive income. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies – Investments” included in Item 7 of the 2015 Form 10-K for other-than-temporary impairment (“OTTI”) indicators. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income. We did not recognize any OTTI on our fixed maturity portfolio for the three months ended September 30, 2016 and we recognized \$2.3 million of OTTI on our fixed maturity portfolio for the nine months ended September 30, 2016 . We did not recognize any OTTI on our fixed maturity portfolio for the three and nine months ended September 30, 2015 .

When an equity security or other invested asset has been determined to have a decline in fair value that is other-than-temporary, we adjust the cost basis of the security to fair value. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies – Investments” included in Item 7 of the 2015 Form 10-K for OTTI impairment indicators. This results in a charge to earnings as a realized loss, which is not reversed for subsequent recoveries in fair value. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

Gross Unrealized Investment Gains and Losses

Based upon our review of our investment portfolio at September 30, 2016 , we determined that there were no individual investments with an unrealized holding loss that had a fair value significantly below cost continually for more than one year. The following table sets forth detailed information on our available-for-sale investment portfolio by lot at fair value for our gross unrealized holding gains (losses) at September 30, 2016 :

Fair Value Measurements

We primarily use one independent nationally recognized pricing service in developing fair value estimates. We obtain one price per security, and our processes and control procedures are designed to ensure the value is accurately recorded on an unadjusted basis. Through discussions with the pricing service, we gain an understanding of the methodologies used to price the different types of securities, that the data and the valuation methods utilized are appropriate and consistently applied, and that the assumptions are reasonable and representative of fair value. To validate the reasonableness of the valuations obtained from the pricing service, we compare to other fair value pricing information gathered from other independent pricing sources. See Note 3, "Fair Value of Financial Instruments" to our condensed consolidated financial statements included in Item 1 of this Form 10-Q for a presentation of our available-for-sale investments within the fair value hierarchy at September 30, 2016 and December 31, 2015.

As of September 30, 2016, Level 3 assets as a percentage of total assets were 0.1% which we have determined to be insignificant.

Other Items

Income Taxes

The following table sets forth the components of our federal income tax expense for the three and nine months ended September 30, 2016 and 2015, respectively.

<i>(\$ millions)</i>	Three months ended September 30		Nine months ended September 30	
	2016	2015	2016	2015
Income (loss) before federal income taxes	\$ 7.4	\$ 29.9	\$ (13.9)	\$ 66.5
Current tax (benefit) expense	(1.5)	2.7	(1.5)	3.3
Deferred tax (benefit) expense	(1.2)	6.5	(0.9)	15.1

<i>Net income (loss)</i>	\$ 10.1	\$ 20.7	\$ (11.5)	\$ 48.1

Income taxes for the nine months ended September 30, 2016 reflect the impact of a correction of prior period deferred tax expense related to expired stock options. As a result of the correction, deferred federal income tax expense and additional paid-in-capital were reduced by \$1.6 million, respectively.

Effective tax rates were (36.2)% and 17.0%, respectively, for the three and nine months ended September 30, 2016 and 30.8% and 27.7%, respectively, for the same 2015 periods. For additional information, see Note 6 of our condensed consolidated financial statements included in Item 1 of this Form 10-Q.

LIQUIDITY AND CAPITAL RESOURCES

General

Liquidity refers to our ability to generate adequate amounts of cash to meet our short- and long-term needs. Our primary sources of cash are premiums, investment income, investment sales and the maturity of fixed income security investments. The significant outflows of cash are payments of claims, commissions, premium taxes, operating expenses, income taxes, dividends, interest and principal payments on debt and investment purchases. The cash outflows may vary due to uncertainties regarding settlement of large losses or catastrophic events. As a result, we continually monitor our investment and reinsurance programs to ensure they are appropriately structured to enable the insurance subsidiaries to meet anticipated short-term and long-term cash requirements without the need to sell investments to meet fluctuations in claim payments.

Liquidity

Our insurance subsidiaries must have adequate liquidity to ensure that their cash obligations are met. However, as discussed below, the STFC Pooled Companies do not have the day-to-day liquidity concerns normally associated with an insurance company due to their participation in, and the terms of, the Pooling Arrangement. In addition, State Auto P&C's \$100.0 million credit facility is available for general corporate purposes such as funding liquidity needs. See "Borrowing Arrangements - Credit Facility" included in this Item 2.

Under the terms of the Pooling Arrangement, State Auto Mutual receives all premiums and pays all losses and expenses associated with the insurance business produced by the STFC Pooled Companies and the other pool participants, and then it settles the intercompany balances generated by these transactions with the pool participants within 60 days following each quarter end. We believe this provides State Auto Mutual with sufficient liquidity to pay losses and expenses of our insurance operations on a timely basis. When settling the intercompany balances, State Auto Mutual provides the pool participants with full credit for the premiums written net of losses paid during the quarter, retaining all receivable amounts from insureds and agents and reinsurance recoverable on paid losses from unaffiliated reinsurers. Any receivable amounts that are ultimately deemed to be uncollectible are charged-off by State Auto Mutual and allocated to the pool participant on the basis of its pooling percentage.

As a result of the Pooling Arrangement, we have an off-balance sheet credit risk related to the balances due to State Auto Mutual from insureds, agents and reinsurers, which are offset by the unearned premiums from the respective policies. While the total amount due to State Auto Mutual from policyholders and agents is significant, the individual amounts due are relatively small at the policyholder and agency level. Based on historical data, this credit risk exposure is not considered to be material to our financial position, though the impact to income on a quarterly basis may be material. The State Auto Group mitigates its exposure to this credit risk through its in-house collections unit for both personal and commercial accounts which is supplemented by third party collection service providers. The amounts deemed uncollectible by State Auto Mutual and allocated to the STFC Pooled Companies are included in the other expenses line item in the accompanying consolidated statements of income.

We generally manage our cash flows through current operational activity and maturing investments, without a need to liquidate any of our other investments; however, should our written premiums decline or paid losses increase significantly, or a combination thereof, we may need to liquidate investments at losses in order to meet our cash obligations. This action was not necessary for the three and nine months ended September 30, 2016 .

We maintain a portion of our investment portfolio in relatively short-term and highly liquid investments to ensure the immediate availability of funds to pay claims and expenses. At September 30, 2016 and December 31, 2015 , we had \$ 69.5 million and \$ 58.1 million , respectively, in cash and cash equivalents, and \$ 2,530.5 million and \$ 2,396.4 million , respectively, of total available-for-sale investments. Our fixed maturities available-for-sale included \$9.2 million and \$8.8 million of securities on deposit with insurance regulators as required by law at September 30, 2016 and December 31, 2015 ; in addition, substantially all of our fixed maturity and equity securities are traded on public markets. For a further discussion regarding investments, see "Investments Operations Segment" included in this Item 2.

Cash provided by operating activities was \$ 62.0 million and \$ 108.5 million for the nine months ended September 30, 2016 and 2015 , respectively. Net cash provided by operating activities for the nine months ended September 30, 2016 included contributions to the Company's pension plan of \$34.5 million, which includes use of the proceeds from the 2016 FHLB Loan (as defined in the "Borrowing Arrangements" discussion included in this Item 2). Net cash provided by operating activities for the nine months ended September 30, 2015 included a return of \$63.5 million of premiums due to the expiration of the homeowners quota share reinsurance arrangement ("HO QS Arrangement") at December 31, 2014. Net cash from operations will vary from

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES
(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

period to period if there are significant changes in underwriting results, primarily a combination of the level of premiums written and loss and loss expenses paid, changes in cash flows from investment income or federal income tax activity.

Cash used in investing activities was \$ 63.8 million and \$134.2 million for the nine months ended September 30, 2016 and 2015 , respectively. The change was primarily driven by (i) a decrease in fixed maturity, equity, and other invested asset purchases in 2016 compared to the same 2015 period, and (ii) the reinvestment of proceeds received from the expiration of the HO QS Arrangement in the first half of 2015.

Cash provided by financing activities was \$ 13.2 million for the nine months ended September 30, 2016 compared to cash used in of \$9.7 million for the same 2015 period. The increase year over year was primarily driven by proceeds from the new term loan with the Federal Home Loan Bank of Cincinnati ("the "FHLB") in the principal amount of \$21.5 million.

Borrowing Arrangements

Credit Facility

State Auto P&C has a \$100.0 million five-year revolving credit facility (the "Credit Facility") maturing in July 2018 with a syndicate of lenders. During the term of the Credit Facility, State Auto P&C has the right to increase the total facility to a maximum amount of \$150.0 million, provided that no event of default has occurred and is continuing. The Credit Facility is available for general corporate purposes and provides for interest-only payments during its term, with principal and interest due in full at maturity. Interest is based on LIBOR or a base rate plus a calculated margin amount. All advances under the Credit Facility are to be fully secured by a pledge of specific investment securities of State Auto P&C. The Credit Facility includes certain covenants and requirements, including financial requirements that State Auto Financial maintain a minimum net worth and a certain debt to capitalization ratio. As of September 30, 2016 , State Auto P&C had not made any borrowings under the Credit Facility and State Auto P&C and State Auto Financial were in compliance with all covenants and requirements of the Credit Facility.

FHLB Loans

In September 2016, State Auto P&C entered into a new term loan with the FHLB in the principal amount of \$21.5 million (the "2016 FHLB Loan"). The 2016 FHLB Loan is a five -year term loan and may be called (prepaid) after three years with no prepayment penalty. The 2016 FHLB Loan provides for interest-only payments during its term, with principal due in full at maturity. The interest rate is fixed over the term of the loan at 1.73% . Proceeds from the loan were contributed to the pension plan to reduce the Company's future pension costs. For the nine months ended September 30, 2016, the Company contributed \$34.5 million to its pension plan.

In addition, State Auto P&C has outstanding an \$85.0 million loan ("2013 FHLB Loan") from the FHLB. The 2013 FHLB Loan is a 20-year term loan that may be currently called (prepaid) at any time with no prepayment penalty. The interest rate is fixed over the term of the loan at 5.03%.

The 2013 and 2016 FHLB Loans are fully secured by a pledge of specific investment securities of State Auto P&C.

Subordinated Debentures

State Auto Financial's Delaware business trust subsidiary (the "Capital Trust") has outstanding \$15.0 million liquidation amount of capital securities, due 2033. In connection with the Capital Trust's issuance of the capital securities and the related purchase by State Auto Financial of all of the Capital Trust's common securities (liquidation amount of \$0.5 million), State Auto Financial has issued to the Capital Trust \$15.5 million aggregate principal amount of unsecured Floating Rate Junior Subordinated Debt Securities due 2033 (the "Subordinated Debentures"). The sole assets of the Capital Trust are the Subordinated Debentures and any interest accrued thereon. Interest on the Capital Trust's capital and common securities is payable quarterly at a rate equal to the three-month LIBOR rate plus 4.20%, adjusted quarterly. The applicable interest rates for September 30, 2016 and 2015 were 5.04% and 4.53% , respectively.

Reinsurance Arrangements

Members of the State Auto Group follow the customary industry practice of reinsuring a portion of their exposures and paying to the reinsurers a portion of the premiums received. Insurance is ceded principally to reduce net liability on individual risks or for individual loss occurrences, including catastrophic losses. Although reinsurance does not legally discharge the individual members of the State Auto Group from primary liability for the full amount of limits applicable under their policies, it does make the assuming reinsurer liable to the extent of the reinsurance ceded.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES
(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

To minimize the risk of reinsurer default, the State Auto Group cedes only to third-party reinsurers who are rated A- or better by A.M. Best or Standard & Poor's and also utilizes both domestic and international markets to diversify its credit risk. We utilize reinsurance to limit our loss exposure and contribute to our liquidity and capital resources.

Each member of the State Auto Group is party to working reinsurance treaties for casualty, workers' compensation and property lines with several reinsurers arranged through reinsurance intermediaries. We have also secured other reinsurance to limit the net cost of large loss events for certain types of coverage. The State Auto Group also makes use of facultative reinsurance for unique risk situations. The State Auto Group also participates in state insurance pools and associations. In general, these pools and associations are state sponsored and/or operated, impose mandatory participation by insurers doing business in that state, and offer coverage for hard-to-place risks at premium rates established by the state sponsor or operator, thereby transferring risk of loss to the participating insurers in exchange for premiums which may not be commensurate with the risk assumed.

Certain of our reinsurance agreements are described below. The rates for these reinsurance agreements are negotiated annually. For a discussion of our other reinsurance arrangements see "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources - Reinsurance Arrangements" in Item 7 of the 2015 Form 10-K.

Property Catastrophe

Members of the State Auto Group maintain a property catastrophe excess of loss reinsurance agreement, covering property catastrophe related events affecting at least two risks. As of June 1, 2016, this property catastrophe reinsurance agreement renewed. Under this reinsurance agreement, we retain the first \$55.0 million of catastrophe loss, each occurrence, with a 5.0% co-participation on the next \$285.0 million of covered loss, each occurrence. The reinsurers are responsible for 95.0% of the excess over \$55.0 million up to \$340.0 million of covered losses, each occurrence. Under this reinsurance agreement, the State Auto Group is responsible for losses above \$340.0 million.

The State Auto Group also maintains a separate property catastrophe excess of loss reinsurance agreement covering the specialty insurance segment's E&S property and programs units catastrophe related events affecting at least two risks. Under this reinsurance agreement, the State Auto Group retains the \$30.0 million of catastrophe loss, each occurrence, with no co-participation on the next \$25.0 million of covered loss, each occurrence.

Property Per Risk

As of June 1, 2016, the State Auto Group renewed the property per risk excess of loss reinsurance agreement. This reinsurance agreement provides that the State Auto Group is responsible for the first \$3.0 million of losses, subject to an additional \$2.0 million annual aggregate deductible ("AAD"). The reinsurers are responsible for 100.0% of the loss excess of the \$3.0 million retention and \$2.0 million AAD for property business up to \$20.0 million of covered loss.

Casualty and Workers' Compensation

As of July 1, 2016, the State Auto Group renewed our casualty excess of loss reinsurance agreement. Under this reinsurance agreement, the State Auto Group is responsible for the first \$2.0 million of losses that involve workers' compensation, auto liability, other liability and umbrella liability policies, subject to an additional \$2.0 million AAD. This reinsurance agreement provides coverage up to \$10.0 million, except for umbrella policies which are covered for limits up to \$15.0 million. E&S casualty and programs units risks are not subject to this casualty excess of loss reinsurance agreement.

Also, certain unusual claim situations involving extra contractual obligations, excess of policy limits, LAE coverage and multiple policy or coverage loss occurrences arising from bodily injury liability, property damage, uninsured motorist and personal injury protection are covered by a Clash reinsurance agreement that provides for \$30.0 million of coverage in excess of \$10.0 million retention for each loss occurrence. This reinsurance coverage sits above the \$8.0 million excess of \$2.0 million arrangement. Policies underwritten by the E&S casualty and programs units are not subject to this casualty excess of loss reinsurance agreement.

In addition, each company in the State Auto Group is party to a workers' compensation catastrophe reinsurance agreement that provides additional reinsurance coverage for workers' compensation losses involving multiple workers. Subject to \$10.0 million of retention, reinsurers are responsible for 100.0% of the excess over \$10.0 million up to \$30.0 million of covered loss. For loss amounts over \$30.0 million, the casualty excess of loss reinsurance agreement provides \$20.0 million coverage in excess of \$30.0 million. Workers' compensation catastrophe coverage is subject to a "Maximum Any One Life" limitation of \$10.0 million. This limitation means that losses associated with each worker may contribute no more than \$10.0 million to covered loss under these agreements.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES
(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

As of July 1, 2016, the State Auto Group restructured its reinsurance coverage for E&S casualty and programs units casualty risks. Under this reinsurance agreement, the State Auto Group is responsible for the first \$2.0 million of losses. This reinsurance agreement provides 100.0% coverage up to \$9.0 million excess of \$2.0 million for any one insured, all policies, and \$14.0 million excess of \$11.0 million for Clash only coverage. This reinsurance arrangement is placed on a loss occurrence basis, while the expired treaty was placed on a risk-attaching basis. As a result of this change, the 2015 reinsurance treaty was terminated on a cut-off basis, resulting in the return of \$5.1 million of ceded unearned premium from the reinsurers to the Company.

Regulatory Considerations

At September 30, 2016, all of our insurance subsidiaries were in compliance with statutory requirements relating to capital adequacy.

ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS

Simplifying the Presentation of Debt Issuance Costs

The amendments in this guidance simplify the presentation of debt issuance costs by requiring them to be presented in the balance sheet as a direct deduction from the carrying amount of the related recognized debt liability, consistent with debt discounts. We adopted this guidance at January 1, 2016 on a retrospective basis and it resulted in a \$0.3 million decrease to notes payable and accrued investment income and other assets at December 31, 2015.

Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)

The amendments in this guidance remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years and should be applied retrospectively to all periods presented. We adopted this guidance at January 1, 2016 and it did not have a material impact on the condensed consolidated financial statements.

CREDIT AND FINANCIAL STRENGTH RATINGS

There were no changes to our credit or financial strength ratings during the third quarter of 2016.

MARKET RISK

With respect to Market Risk, see the discussion regarding this subject at “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Investment Operations Segment – Market Risk” in Item 7 of the 2015 Form 10-K. There have been no material changes from the information reported regarding Market Risk in the 2015 Form 10-K.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

With the participation of our principal executive officer and principal financial officer, our management has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), as of the end of the period covered by this report. Based upon that evaluation, our principal executive officer and principal financial officer have concluded that, as of the end of the period covered by this report:

1. Information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission;
2. Information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure; and
3. Our disclosure controls and procedures are effective in timely making known to them material information required to be included in our periodic filings with the Securities and Exchange Commission.

Changes in Internal Control over Financial Reporting

There has been no change in our internal controls over financial reporting that occurred during the most recent fiscal quarter that has materially affected, nor is it likely to materially affect, our internal control over financial reporting.

Pursuant to the BLANKET AGREEMENT FOR ADVANCES AND SECURITY AGREEMENT ("Agreement") and the RESOLUTION FOR ADVANCES ("Resolution") currently on file with the Federal Home Loan Bank of Cincinnati, the undersigned, who by the authority of the Member's Board of Directors are authorized to borrow from time to time under the "Agreement", hereby apply for a Callable Advance for \$21,500,000 under the following terms and conditions.

PROVIDED, however, that if the Member is in default under the terms of the "Agreement" or any other agreement with the Bank, which default is not waived by the Bank, such funds need not be made available by the Bank hereunder. In addition, the Bank will not be obligated to fund commitments for advances previously made to Members who become tangible capital insolvent or if the Bank is notified by the Members primary federal regulator or insurer that the Member has been restricted from using Federal Home Loan Bank advances.

FUNDING OPTIONS : No fee, guaranteed rate , total amount of application to be disbursed. (Mandatory takedown if next or skip business day.)

- [X] SAME DAY FUNDING [] NEXT DAY FUNDING [] SKIP DAY FUNDING
[] COMMITMENT OPTION 1 : GUARANTEE FUNDS ONLY, OPTIONAL TAKEDOWN : No fee charged for a 90 day commitment. The Bank will offer extended commitment periods from 91 days to 365 days for a flat fee of 10 basis points based on the commitment amount and payable on the date of commitment.
[] COMMITMENT OPTION 2 : GUARANTEE FUNDS AND RATE, MANDATORY TAKEDOWN (FORMULA BASED FEE) : The fee is payable at the time of commitment and is non-refundable if the funds are drawn down prior to the expiration of the commitment. Funds will be automatically credited to the member's DDA on the last day of the commitment if not drawn prior to that date. The fee is calculated using the following: Fee = Advance Amount * (Advance rate for term closest to, but greater than, or equal to, the advance term plus commitment period - FHLB Deposit Rate for Term of Commitment) * (Commitment Term/365)
Minimum Fee of \$25.00 Commitment Expiration Date _____

COMMITMENTS REQUESTED UNDER OPTION 2 HAVE A MAXIMUM COMMITMENT AMOUNT OF \$5.0 MILLION AND A LIMIT OF \$10.0 MILLION IN AGGREGATE COMMITMENTS OUTSTANDING AT ANY ONE TIME. OPTION 3 BELOW WILL BE APPLIED TO INDIVIDUAL COMMITMENTS GREATER THAN \$5.0 MILLION OR AGGREGATE GFR ADVANCE COMMITMENTS TO ANY ONE MEMBER IN EXCESS OF \$10.0 MILLION. The Bank reserves the right to suspend or modify the advance commitment fee programs at any time. On the above commitments, immediate funding may be available if application is received prior to 3:00 P.M., Eastern Standard Time.

APPLICATION FOR CALLABLE ADVANCE

FEDERAL HOME LOAN BANK OF CINCINNATI
P. O. BOX 598
CINCINNATI, OHIO 45201

1. The maturity term of the callable advance is 5 years.
2. The advance may be "called" (prepaid) by the association without a prepayment fee on the 3rd anniversary date of the advance, and each of the succeeding **six (6) month** anniversary dates thereafter. **THE MEMBER MUST GIVE THE BANK NOTICE OF THE INTENT TO "CALL" (PREPAY) THE ADVANCE WITHOUT A PREPAYMENT FEE AT LEAST TWENTY (20) DAYS PRIOR TO ANY ANNIVERSARY DATE AS DESCRIBED ABOVE** . If the anniversary date falls on a Saturday, Sunday, or holiday, the anniversary date will be considered to be the business day prior to the actual anniversary date.
3. Callable advances are prepayable at any time. If a callable advance is prepaid on any date other than a "call" date as outlined above, the fee will be 100% of the lesser of the following two values:
 - a. The present value of the lost cash flow to the Bank based on the difference between the contract rate on the advance and the current yield for a noncallable Federal Home Loan Bank security with the same final maturity as that of the original advance (the discount rate for calculating the present value will be the current yield for such a noncallable Federal Home Loan Bank security) or
 - b. The present value of the lost cash flow to the Bank based on the difference between the contract rate on the advance and the current yield for a noncallable Federal Home Loan Bank security with a final maturity equal to the call date of the original advance (the discount rate for calculating the present value will be the current yield for such a noncallable Federal Home Loan Bank security).
4. Interest Calculation: The interest on the advance is calculated on the opening balance on an actual/actual basis, using the effective rate at the time of disbursement.
5. This loan is subject to the Bank's current Credit Policy, in effect at the time of issuance of the commitment, and which the Borrower acknowledges he is fully familiar with, as well as any subsequent amendments of such Credit Policy.
